

Bryson Klein

NATIONAL YOUNG LEADERS DAY

WHAT WAS THE EXCURSION?

The national young leaders excursion was an exceptional event about leadership. Leadership is important for children so they know they have a voice. Knowing what leadership is empowers children to raise a hand. The national young leaders day helped me to feel a sense of responsibility, and motivated me too. This event impacted me to raise a hand and have a voice.

What did Bryson Klein talk about?

Bryson Klein talked about how you should overcome your fears and failure means your just learning! I genuinely enjoyed Brysons speech since I found it interesting that he won first place just for his country. I took the advice to overcome my fears. So in terms of overcoming my fears I decided to ask for help when i need it, and I started raising my hands for something. I am certainly proud of myself for doing so.

WHAT DID YOU LEARN?

I learnt tons of lessons and the ones that entirely stood up to me were; Overcome your fears, failure means your just learning, just be confident, never compare yourself to others. I appreciate for learning these valuable lessons that I wouldn't have learn myself. Furthermore I learned about Bryson and all the other guest speakers, and how they became where they are today.

Bryson Klein's leadership traits

Bryson Klein is an exceedingly courageous person. Bryson absolutely shows courage since he participated in Ninja Warrior and showed courage when winning the first place medal in Usa vs The World. He showed great partnership while participating in Ninja Warrior, being the grand finalist.
